SUBJECT INDEX

A

Abscesses, intramural vesical (case report), 664
Acid phosphatase, serum levels in localised prostatic cancer, benign prostate hyperplasia or normal prostates, 188
Actinomycosis, causing ureteric obstruction (case report), 548
Alkaline phosphatase, serum
  "flare", in treatment of prostatic cancer with bone metastases, 88
  predictor of response to treatment of prostatic cancer with bone metastases, 88
Aminoglutethimide plus hydrocortisone, in treatment of stage D2 prostatic cancer, 196
Amyloidosis, primary, of bladder (case report), 434
Analgesia, sedoanalgesia, 342
Angiomyolipoma, renal, 585
  along with urothelial carcinoma of renal pelvis in same kidney (case report), 216
Antacids and urinary tract stones (case report), 661
Antibody-coated bacteria, in candiduria, 22
Anticholinergic drugs in treatment of neurogenic bladder dysfunction in infants, 532
Aspirin, and post-prostatectomy haemorrhage, 85
Avafortan in treatment of renal colic, 602

B

Bacillus-Calmette-Guérin *see* BCG
Balanitis, pseudo-epitheliomatous hyperkeratotic and micaceous (case report), 103
BCG, intravesical
  granulomatous hepatitis following (case report), 432
  in treatment of bladder cancer, 35
  tuberculous epididymo-orchitis following (case report), 101
Bladder
  abscess, intramural (case report), 664
  advancement extension graft technique, 606
  amyloidosis (case report), 434
  Boari flap, use in ureteric substitution, 369
  cancer/carcinoma
    cell cycling, determined by monoclonal antibody Ki67, 281
    follow-up, fractionated urinary cytology in, 40
    protease and plasminogen activator activity, 170
    radiotherapy, assessment of factors influencing outcome, 288
    superficial, initial evaluation and response criteria, 380
    superficial, in patients under 40 years of age, topical prophylaxis, 286
    superficial, treatment with intravesical BCG, 35
    transitional cell, ureteric obstruction caused by, 628
  complete prolapse (case report), 436
  effect of caffeine, 613
  effect of capsaicin on rabbit bladder, 155
  function, in mentally retarded, 475
  histopathologial effects and recovery rate following intravesical instillation of thiotepa, doxorubicin and mitomycin, C, 623
  innervation, effect of outflow obstruction, 372
  instability, vesicocutaneous fistula secondary to (case report), 430
  neurogenic dysfunction in infants, treatment with anticholinergic drugs and intermittent catheterisation, 532
  outflow obstruction
    due to benign prostatic hyperplasia, treatment with Cernilton, 398
    effect on innervation of rabbit urinary bladder, 372
    urinary flow rate, acceleration in detrusor instability, 26
    urinary flow rate, assessment by visual analogue scales, 16
  pressure, variations during stress episodes in healthy women, 389
  reconstruction, multiple transverse taeniamyotomy of caecum following (point of technique), 441
  reduced capacity in patients receiving intravesical mitomycin C, 386
  sensory innervation, 155
  voiding, dysfunction, 19
  voiding patterns, women, 12
Boari bladder flap, use in ureteric substitution, 369
Bone, metastases in prostatic carcinoma, distribution, 411
BOOK REVIEWS
  HINMAN, F. Atlas of Urologic Surgery, 1989, 336
  LINGEMAN, J. E. and NEWMAN, D. M., eds. Shock Wave Lithotripsy. State of the Art, 1988, 335
  PAULSON, D. F., ed. Prostatic Disorders, 1989, 335
  SMITH, P. H., ed. Combination Therapy in Urological Malignancy (Clinical Practice in Urology Series), 1989, 335
  WALKER, V. R., SUTTON, R. A. L., CAMERON, E. C. B., PAK, C. Y. C. and ROBERTSON, W. G., eds. Urolithiasis, 1989, 335
Bronchus, carcinoma, and metastases from occult testicular tumour (case report), 659

C

Caecovesical fistula, secondary to diverticulitis (case report), 102
Caecum, multiple transverse taeniamyotomy, after cystoprostatovesiculectomy for bladder cancer (point of technique), 441
Caffeine, effect on bladder, 613
Calcium
  content in water, 123
  effects on crystallisation of calcium oxalate, 351
Calcium oxalate
  crystalline aggregation, factors affecting, 240
  crystallisation kinetics, and effects of calcium and γ-carboxyglutamic acid, 351
Candiduria, antibody-coated bacteria, 22
Capsaicin, effect on rabbit urinary bladder, 155
Catheterisation
  intermittent, in treatment of neurogenic bladder dysfunction in infants, 532
  residual urine in men after, 279
  self-catherisation in wheelchair-bound women, a new device, 162
  suprapubic, using guidewire and dilators (point of technique), 554
Catheters
  double-J, retrieval of broken catheter by Dormia basket (point of technique), 107
  Foley
    balloon puncture and risk of free fragment formation, 500
    introduction by puncture suprapubic cystostomy (point of technique), 555
  retained tip causing recurrent urinary tract infection (case report), 663

urethral reaction to full silicone, hydrogen-coated and siliconised latex catheters, 652
Cernilton, use in treatment of outflow tract obstruction due to benign prostatic hyperplasia, 398
Cernitin T-60 in regulation of prostate cell growth, *in vitro* evaluation, 393
Cimetidine, in treatment of benign prostatic hypertrophy, controlled study, 55
Circumcision
ritual, Xhosa, 318
skin bridge following (case report), 214
Clam cystoplasty (review), 337
Cobb's collar, 294
Coils, intraprostatic, withdrawal (point of technique), 440
Colic, renal, treatment by prostaglandin synthetase inhibitors and Avafortan, 602
Corpus cavernosum, bilateral diverticuli, complicating spongiosum-cavernosum shunt in treatment of priapism (case report), 213
Cryptorchism, relationship of primary site of testis to final testicular size, 208
Crystalluria, and acutely induced renal papillary necrosis, 463
Cystectomy, salvage, CT and MRI in pre-operative assessment, 42
Cystic fibrosis, vasa aplasia and, 538
Cystitis, interstitial
identification of diseases by immunofluorescent and histochemical staining, 265
idiopathic sensory urgency and, 274
Cystoplasty
clam (review), 337
tubularisation or detubularisation?, 30
Cystoscopy
flexible, as adjunct to extracorporeal shockwave lithotripsy, 245
morbidity following: comparison of flexible and rigid techniques, 152
out-patient flexible, urinary infection following, 503
Cystostomy, puncture suprapubic, for introduction of Foley catheter (point of technique), 555
Cysts
epidermoid, testes, 648
tailgut, change in, presenting as urinary retention (case report), 326
Cytology, fractionated urinary, in follow-up of bladder cancer, 40

D

Dehydration and stone disease, 357
Dermatomyositis, necrotising testicular vasculitis associated with, 660
Desmopressin, in treatment of severe nocturnal enuresis in childhood, 535
Detrusor muscle
impaired contractility, urinary flow rate, assessment by visual analogue scales, 16
instability
obstructive, acceleration of flow rate, 26
treatment with flavoxate, double-blind, placebo-controlled, cross-over study, 491
treatment with oxybutynin hydrochloride, 479
treatment response in relation to psychoneurotic status, 486
Diverticulitis, caecovesical fistula secondary to (case report), 102
Doxorubicin
effect of added verapamil on action against renal carcinoma cells, 596
intravesical instillation, histopathological effects and bladder recovery rate following, 623

E

Endometriosis, ureteric obstruction secondary to (case report), 98
Enuresis, nocturnal childhood, treatment with desmopressin, 535
Epididymis
juxtatesticular seminoma (case report), 324
metastasis from prostatic carcinoma (case report), 325
Epididymitis, acute, investigation of patients and partners, 642
Epididymo-orchitis, tuberculous, following intravesical BCG (case report), 101
Erection, negative pressure induced, for assessment of impotent patients with Peyronie's disease, 66
Ethamsylate, effect on haemorrhage in transurethral prostatectomy, 631
Extracorporeal piezoelectric lithotripsy, induction of urinary protein excretion, 575
Extracorporeal shockwave lithotripsy (ESWL)
flexible cystoscopy as an adjunct, 245
in patients having previously received pelvic irradiation (case report), 437
ultrasonic imaging for, 127
ureteric calculi, minimisation of stone deflection (point of technique), 438

F

Fallopian tube carcinoma (case report), 547
Fetal uropathy, 225
Fibrinolytic activity, urinary, and stone formation, 581
Fistulae
caecovesical, secondary to diverticulitis (case report), 102
vesicocutaneous, secondary to bladder instability (case report), 430
Flavoxate in treatment of detrusor instability, 491
Follicle stimulating hormone as predictor of cancer in remaining testis in unilateral testicular cancer, 315
Foreign bodies, superglue in urethra (case report), 217
γ-carboxyglutamic acid (GLA), effects on crystallisation of calcium oxalate, 351

H

Haematuria
microscopic, ultrasonography versus intravenous urography in evaluation, 144
pelvic, osteochondroma as cause of (case report), 99
Haemospermia as presenting symptom of lymphoma (case report), 658
Hepatitis, granulomatous, following intravesical BCG therapy (case report), 432
Hydronephrosis, non-obstructive (case report), 105
Hydrops tubae profluens as symptom of Fallopian tube carcinoma (case report), 547

I

Incontinence
female

prevalence, 12
stress, simplified technique for treatment, 615
male, stress, perineal artificial sphincter for, 495
stress, Stamey procedure, use of endoscopic video camera (point of technique), 329
Infertility, male, effect of paediatric varicocele, 541

K

Kidneys
angiomyolipoma, 585
and urothelial carcinoma of renal pelvis in same kidney (case report), 216
blunt trauma in childhood, 526
carcinoma
effect of verapamil on anti-tumour action of mitozantrone and doxorubicin, 596
recurrent metastatic, 13-year survival (case report), 431
sarcomatoid, osteogenic differentiation in (case report), 663
in solitary kidney, 248
colic, treatment by prostaglandin synthetase inhibitors and Avafortan, 602
duplex
dilatation in, 459
family screening, 455
papillary necrosis, acutely induced, crystalluria and bladder calculi in, 463
stones *see* Stones, kidney
transplantation
AS 800 urinary sphincter in (case report), 559
urological complications, 568
use of internalised ureteric stents, 363

L

Lignocaine, intraurethral, allergic reaction to preparation containing parabens preservatives (case report), 98
Lipomatosis, ureter (case report), 323
Lithotripsy
extracorporeal piezoelectric, induction of urinary protein excretion, 575
extracorporeal shockwave *see* Extracorporeal shockwave lithotripsy
Lymph nodes, retrocrural, surgical approach, 523
Lymphadenopathy with prostate cancer, increased survival, 415
Lymphoma, haemospermia as presenting symptom (case report), 658

M

Mentally retarded, bladder function in, 475
Mexdroxyprogesterone acetate plus hydrocortisone, in treatment of stage D2 prostatic cancer, 196
Mitomycin C, intravesical
effect on bladder capacity, 386
histopathological effects and bladder recovery rate following, 623
Mitozantrone, effect of added verapamil on action against renal carcinoma cells, 596
Monoclonal antibody Ki67 in determining cell cycling in bladder carcinoma, 281
Mycosis fungoides, phimosis associated with (case report), 662

N

Nephrolithotomy, percutaneous, 1
Nephroureterectomy in treatment of transitional cell carcinoma of upper urinary tract (point of technique), 667
Neurosyphilis, voiding dysfunction, 19

O

Oestradiol, serum levels in testicular cancer, 518
Orchiectomy, in treatment of advanced prostatic cancer, comparison with polyoestradiol phosphate, 94
Orchitis, granulomatous: review of 15 cases, 312
Osteochondroma, pelvic, causing haematuria (case report), 99
Osteosarcoma, of penis (case report), 553
Oxybutynin hydrochloride, in treatment of detrusor instability, 479

P

Papilloma, inverted, of penile urethra (case report), 661
Parapens preservatives in lignocaine, allergic reaction to (case report), 98
Paraphimosis, reduction (case report), 666
Pelvis, irradiation, effect on ureter (case report), 437
Penile brachial index, 202
Penis
deformity in Peyronie's disease, assessment by negative pressure induced erection (point of technique), 66
primary osteosarcoma (case report), 553
Peyronie's disease, penile deformity in, assessment by negative pressure induced erection (point of technique), 66
Phallus, female, urethralisation with absent urogenital sinus (case report), 551
Phenol, trans-trigonal injection, 164
Phimosis
associated with mycosis fungoides (case report), 662
reduction of paraphimosis (case report), 666
Phosphatases *see* Acid phosphatase; Alkaline phosphatase
Phytosterols, in treatment of benign prostatic hyperplasia, 639
Plasminogen activator activity in bladder carcinoma, 170
Polyoestradiol phosphate in treatment of advanced prostatic cancer, comparison with primary orchiectomy, 94
Priapism, spongiosum-cavernosum shunt, bilateral diverticuli of corpus cavernosum in (case report), 213
Prostaglandin synthetase inhibitors in treatment of renal colic, 602
Prostate
benign hyperplasia
origin and structure, 506
serum acid phosphatase in, 188
treatment of outflow tract obstruction with Cernilton, 398
treatment with phytosterols, 639
benign hypertrophy, cimetidine treatment, 55
cancer/carcinoma
with bone metastases, serum alkaline phosphatase as predictor of response and significance of SAP "flare", 88
bony metastases, distribution, 411
epididymal metastases (case report), 325
histological and immunological factors affecting prognosis, 405
locally advanced, palliative radiotherapy, 515
and lymphadenopathy, increased survival, 415
masquerading as rectal carcinoma, 193
prognosis following prostatectomy in patients with minimum invasion of capsule and/or micrometastases in regional lymph nodes, 177

serum acid phosphatase in, 188
testicular metastases, 100 (case report), 205
treatment, comparison of primary orchiectomy and polyoestradiol phosphate, 94
treatment of stage D3 cancer refractory to or relapsed following castration plus oestrogens, 196
tumour markers and differentiation grade, 635
tumour markers as prognostic aids, 182
cell growth, effect of Cernitin T-60, 393
intraprostatic coils, withdrawal (point of technique), 440
outflow obstruction, use of urethral stent in unfit patients, 58
stents, use in urinary retention in patients unfit for surgery, 66
surgery, antibiotic compared with antiseptic prophylaxis, 509
suspected pre-malignant lesions, classification and follow-up, 306
transurethral resection, haemorrhage in, effect of ethamsylate, 631
transurethral resection syndrome
development, fluid and electrolyte dynamics during, 79
osmotic and metabolic sequelae of volumetric overload, 71
Prostatectomy, 449
haemorrhage following, role of aspirin, 85
patient selection, symptoms versus flow rates versus urodynamics, 303
Prostatitis, chronic bacterial, pathogenesis, 47
Protease activity in bladder carcinoma, 170
Pyelonephritis, emphysematous, surgical implications, 572

Q

Quadriplegics, external striated sphincter stents in, 297

R

Radionuclide diuretic renography, in evaluation of surgery in chronic obstructive uropathy, 137
Renal *see* Kidneys
Renal pelvis, urothelial carcinoma, along with angiomyolipoma in same kidney (case report), 216
Renography, radionuclide diuretic, in evaluation of surgery in chronic obstructive uropathy, 137
Rhizotomy, sacral posterior, effect on urinary continence in spinal injury patients, 618

S

Sarcoma *see* Osteosarcoma
Sedoanalgesia, 342
Semen analysis in impalpable testes' patients, 646
Seminoma, juxtatesticular (case report), 324
Serum alkaline phosphatase (SAP) *see* Alkaline phosphatase, serum
Sex hormone binding globulin, serum levels in testicular cancer, 518
Sphincters
artificial urinary, AS 800, in renal transplantation (case report), 549
external striated stents in patients with spinal injuries, 297
perineal artificial, for acquired incontinence, 495
Spinal injury patients
external striated sphincter stents in, 297
urinary continence in, following complete sacral posterior rhizotomy, 618
Stamey procedure, use of endoscopic video camera (point of technique), 329
Stents
double J, confirmation of position of stent inserted at open operation (point of technique), 439
double pigtail, in ureteric stone retrieval, 254
external striated sphincter, in patients with spinal injuries, 297
prostatic, for urinary retention in patients unfit for surgery, 66
ureteric
retained, minimally invasive removal (point of technique), 328
use in renal transplant recipients, 363
urethral, for prostatic outflow obstruction in unfit patient, 58
Stomach carcinoma, presenting as urinary retention (case report), 431
Stones
bladder, and acutely induced renal papillary necrosis, 463
caliceal, treatment, 9
caliceal diverticuli, treatment, 6
chronic dehydration causing, 357
formation, urinary fibrinolytic activity and, 581
kidney
giant (case report), 433
percutaneous removal: review of 1000 cases, 1
localisation, ultrasound monitored lithotriptors (point of technique), 666
silicon, antacids and (case report), 661
staghorn, disappearance (case report), 327
staghorn urinary, morphostructural patterns, 132
ureteric
extracorporeal shockwave lithotripsy, minimisation of stone deflection (point of technique), 438
retrieval by double pigtail stent, 254
urinary tract, analysis by nuclear techniques, 232
Stress, effects on urethral and bladder pressure in healthy women, 389
Substance P, in bladder sensory nerves, 155
Superglue in urethra (case report), 217
Syphilis, voiding dysfunction, 19

T

Taeniamyotomy, multiple transverse, after cystoprostatovesiculectomy for bladder cancer (point of technique), 441
^{99m}Tc DTPA diuretic renography, in evaluation of surgery in chronic obstructive uropathy, 137
Teratoma, monodermal, testes, 648
Testes
cancer
germ cell tumours, 420
germ cell tumours, disseminated, treatment, 425
metastases from occult tumour (case report), 659
metastases from prostatic carcinoma (case report), 100, 205
persistence of carcinoma *in situ* after chemotherapy for germ cell tumours, 420
sex hormone binding globulin and oestradiol levels in, 518
unilateral, follicle stimulating hormone as predictor of cancer in remaining testis, 315
epidermoid cyst (monodermal teratoma), 648
haematoma, complicating testicular vein ligation (case report), 433
impalpable, semen analysis in patients, 646
juxtatesticular seminoma (case report), 324
necrotising vasculitis associated with dermatomyositis (case report), 660

relationship of primary site of testis to final testicular size, in cryptorchism, 208
torsion of vas aberrans (case report), 435
transverse ectopia, presenting as strangulated inguinal hernia (case report), 217
undescended, iatrogenic torsion (case report), 552
volume, effect of post-pubertal varicocele, 541
Testicular vein ligation, haematoma as a delayed complication (case report), 433
Thiotepa, intravesical instillation, histopathological effects and bladder recovery rate following, 623

U

Ultrasound, stone localisation using ultrasound monitored lithotriptors (point of technique), 666
Umkhwetha, 318
Ureter
diverticula, transitional cell carcinoma (case report), 322
effect of pelvic irradiation (case report), 437
encasement, radiological diagnosis, 471
lipomatosis (case report), 323
obstruction
bilateral, secondary to endometriosis (case report), 98
caused by actinomycosis (case report), 548
transitional cell carcinoma of bladder causing, 628
smooth muscle contractility, effects of acid-base changes, 257
stents
retained, minimally invasive removal (point of technique), 328
use in renal transplant recipients, 363
stones *see* Stones, ureteric
substitution with Boari bladder flap, 369
Ureterocele, giant (case report), 214
Urethra
anterior, polyp, in child (case report), 323
Cobb's collar, 294
penile, inverted papilloma of (case report), 661
pressure, variations during stress episodes in healthy women, 389
reaction to full silicone, hydrogen-coated and siliconised latex catheters, 652
stents, for prostatic outflow obstruction in unfit patient, 58
superglue in (case report), 217
Urethralisation of female phallus with absent urogenital sinus (case report), 551
Urgency, idiopathic sensory, in early interstitial cystitis, 274
Urinary diversion (review), 113
Urinary symptoms in men aged over 60, prevalence, 175
Urinary tract
infection caused by retained catheter tip (case report), 663
small cell carcinoma, 590
stones *see* Stones, urinary tract
upper, transitional cell carcinoma, nephroureterectomy in treatment of (point of technique), 667
Urine
bacteriological state, in symptom-free males, 148
flow rates
acceleration in obstructive detrusor instability, 26
use of visual analogue scales in assessment, 16
fractionated cytology, in follow-up of bladder cancer, 40
retention
as complication of varicella (case report), 546
as symptom of gastric carcinoma (case report), 431
treatment with prostatic stents in patients unfit for surgery, 66
Urography, intravenous (review), 561
Uropathy
chronic obstructive, ""TcDTPA diuretic renography in evaluation of surgery, 137
fetal, 225

V

Varicella, acute urinary retention in (case report), 546
Varicocele, post-pubertal, effect on testicular volume, 541
Vas aberrans, torsion (case report), 435
Vasa aplasia and cystic fibrosis, 538
Vasectomy, "special clearance" following, long-term outcome, 211
Verapamil, effect on anti-tumour action of mitozantrone and doxorubicin against renal carcinoma cells, 596
Vesicocutaneous fistula secondary to bladder instability (case report), 430
Virilism, urethralisation of female phallus with absent urogenital sinus (case report), 551
Voiding, dysfunction, neurosyphilis, 19
Voiding patterns, women, 12

W

Water, calcium content, 123

X

Xhosa, ritual circumcision, 318
